PROFESSIONAL SUMMARY

Seasoned Senior Mobile Application Engineer with 7+ years of experience in **system design & architecture**, specializing in **scalable mobile systems** and **high-performance applications** across fintech, e-commerce, and healthtech. Expert in delivering dual-platform depth—bridging native iOS/Android ecosystems and cross-platform frameworks—to deliver applications that are technically sound and aligned with business outcomes. Proven track record in driving engineering standards, mentoring teams, and delivering PCI-DSS compliant, secure payment ecosystems for global markets.

CORE COMPETENCIES

- Mobile System Architecture & Design
- Technical Team Leadership & Mentoring
- Agile/Scrum Methodology & Sprint Planning
- FinTech Security & Compliance (PCI-DSS)
- API Design & Backend Integration
- Performance Profiling & Optimization
- CI/CD Automation & Release Engineering
- Unit, Integration & UI Testing (TDD)

TECHNICAL SKILLS

Languages: Kotlin, Java, Swift, Dart, C#, JavaScript, SQL, Bash
Android: Jetpack Compose, Coroutines, Flow, Hilt, Dagger2, Room, WorkManager, Jetpack Navigation
iOS & Cross-Platform: SwiftUI, Flutter, React Native, Xamarin, BLoC, Redux, Provider
Architecture: MVVM, MVI, Clean Architecture, SOLID Principles, Design Patterns, Modularization
Infrastructure & Tools: Git, CI/CD (GitHub Actions, Bitrise, Jenkins), Fastlane, Firebase, REST, GraphQL
Testing & Quality: JUnit, Mockito, Espresso, TDD, Static Analysis (Detekt, Lint), SonarQube
Database & Cloud: AWS (S3), SQLite, Realm, Drift, Firestore, Room, ProGuard/R8 (App Security)

PROFESSIONAL EXPERIENCE

Senior App Developer Aug 2023 – Present
DG Infotech Ltd. (DGePay, Concern of Dipon Group), Dhaka
Tech Stack: Kotlin, React Native, REST API, Firebase, CI/CD, MVVM
- **Architected a highly scalable modular structure** for fintech apps (DGePay Bekti & Saudagor) supporting **10k+ merchants**, integrating QR codes, digital wallets, and real-time bank transfers.
- Optimized checkout speed by **50%** and reduced app crash rates by **30%** through proactive debugging.
- Streamlined the CI/CD pipeline, reducing deployment cycles by **35%** while maintaining **99.9% uptime** and ensuring full **PCI-DSS compliance**.
- Improved merchant activation by **18%** and user retention by **22%** through UX redesign.

Senior Android Developer Dec 2022 – Jul 2023
shurjoMukhi Ltd., Dhaka
Tech Stack: Kotlin, Java, Coroutines, Hilt, Retrofit, Jetpack
- Managed cross-platform (Android, iOS, Web) development, achieving **95% on-time delivery** for sprint goals.
- Mentored **5+ developers** and introduced code review cultures, reducing post-release bugs by **30%**.
- Migrated legacy modules to **Kotlin** and reduced app load times by **20%** via performance profiling.

Software Engineer — Mobile Application Jan 2021 – Nov 2022
Dnet, Dhaka
Tech Stack: Flutter, Dart, SQLite, BLoC, Offline-First Architecture
- Developed UNICEF-backed health apps supporting **1k+ downloads** with a focus on high reliability.
- **Engineered an offline-first architecture** and lightweight data collection framework for low-bandwidth environments, boosting field worker productivity by **35%**.
- Ensured international **GDPR-equivalent** data privacy compliance and implemented multi-language localization.

Software Engineer May 2018 – Dec 2020
HAL Technologies Ltd., Dhaka
Tech Stack: Java, C#, Biometric SDKs, SQL Server, SDK Integration
- **Engineered a high-concurrency POS system** with online/offline synchronization and integrated thermal printers/ATMs via custom SDK wrappers.
- Developed a **biometric attendance system** (RemaTea) handling 2,000+ daily fingerprint logs, optimizing hardware-software communication for tea estate operations.
- Optimized payment APIs and DB schemas, reducing transaction latency by **30%** while maintaining **80%+ code coverage** through rigorous unit testing.

KEY PROJECTS

DGePay Platform (FinTech) | *React Native* iOS Customer | iOS Merchant
- Supports **10K+ merchants** and processes high-volume daily transactions with **99.9% reliability**.
- Integrated multi-channel payment ecosystems including digital wallets and **Bangla QR** for seamless interoperability.

Public Procurement (Govt. Utility) | *Native Android* Play Store
- Engineered the official CPTU (Govt. of Bangladesh) app for real-time tracking of national e-GP and offline tenders.
- Integrated eProcure data systems to provide awardee lists and legal documents to thousands of active users.

UNICEF Adolescent Health App | *Flutter* Android | iOS
- Reached **1k+ downloads**; reduced cross-platform development costs by **40%** using Flutter.
- Optimized for low-bandwidth regions, providing critical physical and mental health resources to youth in Bangladesh.

praniSheba (IoT & AgriTech) | *Native Android* Play Store
- Integrated **IoT and RFID technology** to track cattle genetics, health, and reproduction for rural farmers.
- Developed a complex module for **Cattle Weight Calculation** using image recognition and shape analysis.

Visual Compliance (Enterprise Security) | *Xamarin/C#* iOS | Android
- Developed a cross-platform hybrid application for **Descartes (Canada)** to manage airline offenses and permissions.
- Implemented high-security protocols for confidential personnel usage within restricted premises.

MYCash (Digital Finance) | *Native Android/iOS* Android | iOS
- Built a dynamic digital financial service app reaching **100k+ downloads** and facilitating secured daily transactions for the mass market.
- Focused on **encryption and secure API consumption** to ensure financial data integrity.

EDUCATION

B.Sc. in Computer Science Engineering 2018
Daffodil International University, Dhaka

Diploma in Computer Technology 2015
Bogra Polytechnic Institute

CERTIFICATIONS

Cloud & AI/ML (Simplilearn) 2025
- **Amazon S3 Storage Classes:** Lifecycle management, cost optimization, and access control.
- **Machine Learning with Python:** Supervised/Unsupervised learning and model evaluation.

Project Management & Professional Skills (VUMI) 2023
- **Project Management Fundamentals:** Risk, cost, and change management within project constraints.
- **Corporate Networking:** Team leadership, negotiation, and client relationship management.

Software Engineering Foundations
- **C# ASP.NET MVC-5 (300 Hours):** LICT Project of BCC (Bdjobs Training) 2017
- **Android App Development:** RR Foundation, Dhaka 2015

ADDITIONAL TRAINING

Cloud & Systems: AWS (EC2, Lambda), CCNA Routing & Switching, Kali Linux Basics
Programming & Digital: C Programming, PHP, AI Beginners Guide, Digital Marketing

AWARDS & LEADERSHIP

Recognition: Awarded by Bogura DC Office (Govt. of Bangladesh) for Mobile App Development.
Volunteer: Digital Innovation Fair, Bangladesh — Technical Advisor & Contributor.
Languages: English (Professional), Bengali (Native), Hindi (Spoken), Urdu (Spoken).
